

In Season Daily Notifications

We will send out a notification every day, informing employees about who will be working the following day. We will send these alerts through an automated system. These notifications will be sent in the form of 1) an automated voice message to your primary and/or secondary phone number, 2) a text message to your cell phones, and 3) an email message to your primary and/or secondary email address. These alerts will originate from Sugar Land, TX and will have a phone number with the area code (281). They will not have Rader Detasseling in the caller ID.

Please let us know how you would like to be notified by filling out the information below. You may choose as many forms of notification as you would like.
